

Key Stage 3 Curriculum 2016

The Beckfoot curriculum is carefully defined to link with primary school outcomes. In the early years we concentrate on developing the skills of problem solving and independent learning that become the cornerstone of later academic success. We also ensure numeracy and literacy ability is sharp enough to allow students to progress well in all their subjects. In later years students opt for a subject selection that suits their aspirations for life and we support them throughout with wide enrichment opportunities that build their confidence and self-esteem.

Our Key Stage 3 Curriculum	Year 7	Year 8	Year 9
