

## Phase 1

All students will be expected to consolidate their learning from every lesson and review their learning prior to half term assessment using 365, named websites and/or teacher support material.

Design and Technology home learning will involve a variety of activities including:

- Termly homework booklets to encourage independent consolidation of knowledge recall and application of ideas
- Opportunities for students to apply knowledge to more formal exam questions
- Students researching an upcoming topic of work or preparing for a keyword mini test
- Using project-based tasks which encourage students to extend topic areas they are curious about
- Weekly consolidation of learning from lessons.

Students are also required to catch up on work missed due to absence.

## Phase 2

All students will be expected to consolidate their learning from every lesson and review their learning prior to half term assessment using 365, named websites and/or teacher support material.

Students should be spending an hour on their design and technology tasks.

Design and Technology home learning will involve a variety of activities including:

- Building a bank of revision resources, practicing exam style questions, research and wider reading, project-based work and comprehension tasks
- Students should be spending up to 1 hour a week on Designs and Technology tasks for their examined course
- Weekly consolidation of learning form lessons.

Students are also required to catch up on work missed due to absence.

## Post 16

Students are expected to undertake 5 hours of independent study each week. The teacher will provide guidance and direction on what to study.

All students will be expected to review their learning prior to a half termly assessment using 365, named websites and/or teacher support material.

Design and Technology home learning will involve a variety of activities including:

- Building a bank of revision resources
- Practicing exam style questions
- Research and wider reading
- Project based work and comprehension tasks.
- Weekly consolidation of learning from lessons.
- 

Students should also be spending time developing their coursework product and skills.

Students are also required to catch up on work missed due to absence.
