Hear from the Headteacher, Simon Wade, at 6:30pm

enjoy learn succeed

We are committed to providing as many enrichment activities as possible for our students. Our aim is to offer activities and enrichment opportunities that compliment and build upon that offered within the curriculum experience. Students and parents are regularly informed of the range of enrichment opportunities available. Here is a taster of some of the activities on offer:

SPA (Sports and Performing Arts)

Our programme of activities runs across tutor and break time to allow students to access activities in both subject areas, including learning to play a wide range of instruments and playing different sports. Students may sign up to take part in up to two activities each week.

Out of school trips and enrichment experiences

These trips and enrichment activities are run throughout the year and can range from residential trips within the UK and beyond, whole year group trips e.g. Humanities ACE Day to Bolton Abbey, subject-specific trips as well as reward trips. They are co-ordinated via the Student Facilities Office (SFO). We will let you know about them via the MyEd school app/messaging. Payments are made using ParentPay.

Enrichment Week

This is final week of the school year before students break up for the summer break. It is a week off timetable where students in Year 7, 8 and 9 take part in an activity of their choice. The EW booklet is issued in November with details of all the activities, ranging from residential trips in the UK and abroad, to local visits, as well as exciting in-house activities. Cost of the trips vary, with free in-house activities available to all.

Something for
EVERYONE!
